

## **Maths**

This term, children will revisit key mathematical skills, including times tables, to strengthen their understanding, working on fluency at speed. I will introduce pupils to negative number, and end with measurements.

## **English**

Pupils will be writing a non fiction piece; we will start with our model text- Should children do housework? We will continue to read a range of texts to develop and expose pupils to different genres whilst expanding their understanding.

## **Science**

This term we will be learning about space. Pupils will answer a range of enquiry questions including; how do we have day and night?

## **Art**

We have this year developed a range of skills and for art this term we will be combining these skills to produce space themed art. Pupils will require their art tops for these sessions.

## **Music**

Pupils will develop their own performance using an musical of their choice as inspiration

## **PE**

PE will take place on Wednesdays and Fridays.

## **PSHE/RE**

We will continue with Healthy me and Relationships. RE we will be asking philosophical questions- inline with the new Lincolnshire framework

## **Topic**

This term, we will be bring all our geographical knowledge together for hte topic- Our changing country. Pupil will observe changes overtime of how our country has changed and make comparisons.

## **French**

Pupils will continue with their speaking skills in the topic; What is the weather?
